

People for Animals Wildlife Hospital, Bangalore

## Urgent Funding Proposals *(as of July 2017)*

At this point, in order for us to better handle the growing influx of urban wild animals, we are recruiting more veterinarians, rescue and nursing staff. To enable us to deliver care that's of higher quality and faster, with a better success ratio, we are constantly trying to upgrade our facilities and services.

We seek funds, sponsorships and support donations from citizens and businesses who hold a desire to protecting the natural wealth we have in our rapidly growing city. We do not have any government body or independent agency supporting us, and rely solely on those who believe in our work, the income from our pet cemetery and independent project sponsors.

Listed below are critical needs for us at this time.

1.	<b>New Infrastructure</b>	
A	Mammal enclosure, approx 60 x 30 x 10 feet	Rs. 9,70,000
B	<i>Primate Socialising Habitat (sponsored by Boopesh Reddy, being built by Bren Corporation)</i>	<i>15,00,000</i>
